Tēnā koutou EIT team,

We hope you're all having a good week.

Thank you all for your participation in the celebration of our Kōhine Robotics Expo 2024 last month, I wish I had been there to celebrate our kōhine alongside you.

We are appreciative and grateful for the support from our community partners and know from the feedback on the day that all the kōhine and kaimahi thoroughly enjoyed the day.

Having EIT support us with the activation stations allowed the kōhine to explore the various options and pathways that STEM can offer them.

We value your feedback, please take a few minutes to respond to these pātai - [Kōhine Robotics Feedback form](#)

We look forward to exploring the opportunity to collaborate with EIT in 2025.

Have a safe summer break.

Ngā mihi, Shanon

Thanks Anastasia,

Congratulations on defending your PhD, this is very exciting!

Regarding what is coming up this month. I have you down for two things....

- **Kōhine Robotics Expo is on Wednesday 27 November (Te Poho O Rawiri Marae)**

At this event, we are asking if EIT would like an activation station. This does not have the capacity to teach anything - it's a bit of a show and tell; the girls will be coming and going and touring around the different stations. Christine Beach from EIT has already been in touch about this and I have CCed you in on the response. [Activation Station Runsheet](#)

- **Aerospace Pilot Workshop on Friday 29 November (Tōnui Collab)**

At this event, we are asking if you would like to run a 1 - 2 hour workshop for approximately 20 students as part of the Aerospace business case that Sandy Britain and Stu Potter are leading out. This workshop will take place at Tōnui Collab so we need to discuss what you're teaching and what resourcing you need. [Aerospace Project](#)

I want to ensure we don't have any confusion about these two different projects/initiatives.

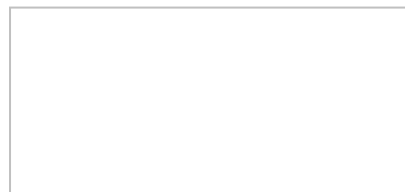

Happy to jump on a video call if that helps.

Please confirm your contribution to both these projects.

Ngā mihi, Shanon
