I had the pleasure of being taught by Anastasia for Maths in IT last year, and she proved to be an excellent teacher who genuinely cares about her students’ success. She not only ensures that we understand the material but also encourages us to think critically and apply concepts effectively. It’s clear that she is invested in our grades and future, which makes a significant difference in the learning experience.

Currently, she is teaching me both Special Topic and Machine Learning, and her dedication remains consistent. She is particularly helpful in Special Topic, always willing to provide guidance and answer questions, whether in class or via email. Her responsiveness and willingness to support students make her an invaluable educator.

Overall, Anastasia is a great teacher who combines strong subject knowledge with a genuine commitment to her students' academic growth. I highly appreciate her efforts and the positive impact she has on my learning journey.
