Thank you for update

Yes that's great – just need to wait till next week – we have Graduation to get through this week.  
Understand , meeting with Geoffrey tomorrow.

**Subject:** Mātai Medical Research Institute

Kia ora Tracey

I hope this email finds you well. As mentioned earlier, I had a productive meeting with Mātai Medical Research Institute regarding our ongoing work. They expressed significant interest in our Special Topic (BCS), which involves collaborating with students to produce articles.

Mātai is particularly interested in my research on the human visual system and the involvement of students in this research. Given their need for real-world publications with students, they see potential value in our work. Additionally, as they plan to expand, they are open to discussing potential internships and collaboration opportunities with us.

I had the pleasure of speaking with William Schierding and Samantha Holdsworth, who were both very receptive to the idea of working together.

Please let me know if you would like to discuss this further or if there are any steps you would like me to take next.

Best regards,  
Dr Anastasia Mozhaeva
