Anastasia Mozhaeva

Eastern Institute of Technology

Dear Anastasia:

I am writing to express my strong support for the project "Human Vision Based Technology for Real-Time Processing of Wide-Angle Aerospace Video Signals".

Our company is very interested in the new technology that will allow the use of drones with a wide-angle panorama and data analysis from a 360-degree panorama in real time. We are fully committed to supporting this project and believe it holds significant potential for advancement in agriculture and innovation.

We will provide information and consulting support to the project.

Sincerely,

Richard McPhail

Chief Executive Officer
